

This space is reserved for a statement submitted by the district. OEA will collect this information via a survey that will open in August each year. You may find some example statements in the resource section of SAFE. Districts interested in providing a statement to appear on final preview reports this year may do so during the secure release.

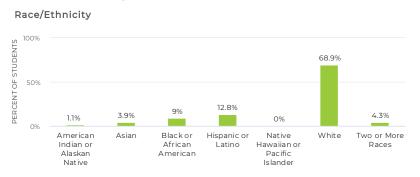

The statement above is provided by the district. It is not an evaluation on the part of the Wisconsin Department of Public Instruction.

District Report Card

District Schools Accountability Summary

This page summarizes outcomes for schools in this district. It is for information only. School report card scores do not factor into district scores. Instead, to determine the district's scores and rating, all students in the district, including those in alternate accountability schools, are treated as one district-wide student body.

Some tables below are blank in 2019-20 preview reports because no schools have overall ratings on these preview reports.

Distribution of Schools by Rating

This table lists the number and percentage of schools in each of the five rating categories as determined by the schools' overall scores.

Rating Category	Number of Schools	Percent of Schools
Significanty Exceeds Exepectations		
Exceeds Exepectations		
Meets Exepectations		
Meets Few Exepectations		
Fails Exepectations		

Alternate Accountability Schools

Schools that are new, small, or do not have grades in which state tests are taken lack the data needed to receive an overall score and rating. Instead, these schools participate in an alternate accountability process and receive one of two ratings based upon results of a district-supervised self- evaluation. Alternate accountability ratings for schools in this district are summarized below.

Alternate Accountability Rating Category	Number of Schools	Percent of Schools
Satisfactory Progress		
Needs Improvement		

School Score Summary

This table does not include alternate accountability schools.

Priority Area	Low Score	Average Score	High Score	Possible Points
Overall Score				100.0
Student Achievement	60.8	65.5	69.1	100.0
School Growth	42.3	63.7	91.6	100.0
Target Group Outcomes	40.0	57.6	76.7	100.0
On-Track to Graduation	83.3	86.7	88.7	100.0

Student Achievement

This priority area provides information about how students in this district perform on state assessments. Use these data to explore district-wide performance. The score is a composite of performance in English language arts and mathematics, based upon levels of performance students have attained.

Priority Area Score

This score is 1.2 points lower than last year.

This district's score was the same or higher than 45.6% of districts in the state.

Student Group Performance

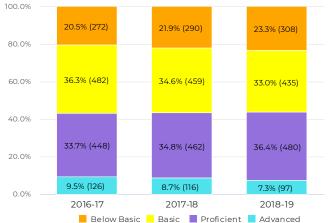

The scores below are determined using points-based proficiency rates for student groups with at least 20 students in the district. They give partial credit for Basic test results and extra credit for results in the Advanced level. The size of the group is shown in parentheses, like this: (group size).

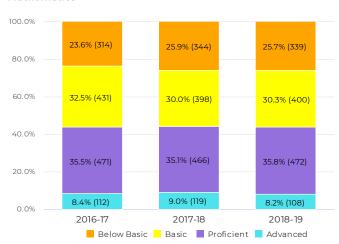

Proficiency Levels by Year

The graphs below show outcomes across different performance levels of the state tests taken in this district. The size of the group is shown in parentheses, like this: (group size).

Student Group Trends by Performance Level

These tables show state test performance level outcomes for different groups of students in this district. They augment the district-wide outcomes shown at the bottom of previous page. If a group is not displayed, there are no full academic year test results for that group. These data are for information only and do not directly determine Student Achievement Scores.

Page 4 of 10

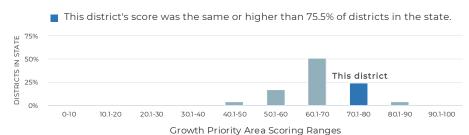

District Growth

This measure describes how much student knowledge of English language arts and mathematics in the district changes from year to year. It uses a value-added model that estimates how much student scores are expected to change based on the actual growth of similar students. If student performance improved more than predicted by the model, the district is considered to have high value-added. The value-added model produces a score on a roughly 0-6 scale. This is converted to a 0-100 scale to arrive at the Growth Priority Area score

Priority Area Score

This score is 7.6 points lower than last year's.

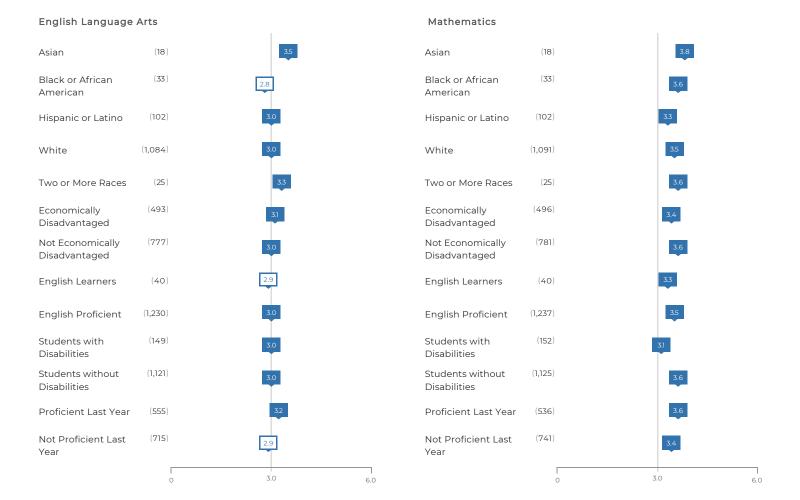

Mathematics Score: 75.5

English Language Arts Score: 66.0

Student Group Value-Added

This graph displays English language arts and mathematics value-added scores for specific student groups. Only groups that have at least 10 students are shown. Group outcomes do not directly affect the priority area score but can be used to better understand the district's impact on different groups of students. Higher value-added means greater positive impact. A score of 3.0 is average. Group size is shown in parentheses.

Score: 66.0

Target Group Outcomes

This priority area examines outcomes for students with the lowest test scores in their school - the Target Group. The district Target Group is the combination of all school-level target groups. Outcomes are displayed for achievement, growth, regular attendance, and attendance or graduation rate

Priority Area Score

This score is x.x points higher/lower than last

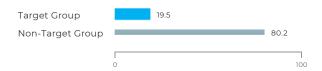

Target Group Outcomes Priority Area Scoring Ranges

Target Group Subscores

Achievement Score: 17.9

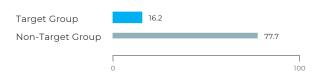

The scores below are average points-based proficiency rates for students in the target group and students not in the group.

English Language Arts

The Target Group's score is x.x points higher/lower than last year.

Mathematics

The Target Group's score is x.x points higher/lower than last year.

Students Regularly Attending

This score combines up to three years of regular attendance rates. The regular attendance rate is the percentage of students who attended school at least 90% of the days. Single year regular attendance rates are provided on the On-Track to Graduation - Additional Information page.

The Target Group's score is x.x points higher/lower than last year.

Growth

The value-added scores below are for students in the target group and students not in the group. A score of 3.0 is average.

English Language Arts

The Target Group's score is x.x points higher/lower than last year.

Mathematics

The Target Group's score is x.x points higher/lower than last year.

Graduation

Score: 73.5

This score is the average of 4 and 7-year graduation rates from 2018-19.

The Target Group's score is x.x points higher/lower than last year.

Score: 88.6

Score: 93.8

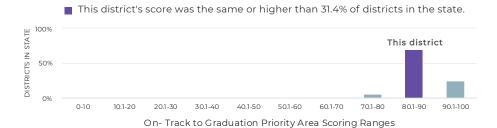

Score: 57.4

On-Track to Graduation

This priority area provides information about how successfully students are achieving educational milestones that predict readiness for college and career.

Priority Area Score

This score is 0.2 points higher than last year.

On-Track Subscores

Students Regularly Attending

This score combines up to three years of regular attendance rates. The regular attendance rate is the percentage of students who attended school at least 90% of the days. Single year regular attendance rates are provided on the next page.

This score is 0.1 points higher than last year.

Graduation

Score: 88.5

Score: 66.3

This score is the average of 4 and 7-year graduation rates from 2018-19.

This score is 1.3 points higher than last year.

3rd Grade English Language Arts

This score is the average points-based proficiency rates in English language arts for 3rd graders in this school.

This score is 2.2 points higher than last year.

8th Grade Mathematics

This score is the average points-based proficiency rate in mathematics for 8th graders in this school.

This score is 0.7 points lower than last year.

On-Track to Graduation - Additional Information

The data on this page provide additional detail about key outcomes - regular attendance rates and graduation rates - for student groups in this district. The data do not directly impact the Priority Area score but are important for understanding student engagement and success.

Student Group Regular Attendance

This table shows regular attendance rates for different groups of students. The three most recent years are presented to show if rates have changed over time.

	2016-	17	2017	7-18	2018-19

Student Group Graduation Rates

This table shows two cohort graduation rates for 2018-19. These measure the percentage of students who started high school together that graduated by 2018-19. The four-year rate pertains to students who started high school four years prior. The seven-year rate pertains to students who started seven years prior. Use caution in examining rates for groups smaller than 20 students.
