Overview Forward Exam Background Key Dates Test Times Test Administrator Role

Forward Exam Background

The Forward Exam is a summative assessment designed to gauge how well students are doing in relation to the Wisconsin Academic Standards.

http://dpi.wi.gov/assessment/forward

The Wisconsin Academic Standards outline what students should know and be able to do in order to be on track for future learning.

http://dpi.wi.gov/standards

5 6

The Forward Exam is an untimed test. The following are suggested testing times provided by DRC to be used as guidance to assist with scheduling. It is important to remember that students may take more time or less time to complete the test based on effort and ability levels.

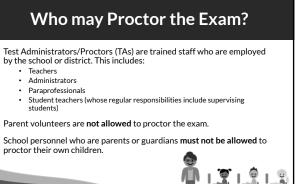

Table below shows Forward Exam estimated testing times in minutes.

Grade Level	ELA	Mathematics	Science	Social Studies
3	125	90	NA	NA
4	125	90	105	70
5	125	90	NA	NA
6	125	105	NA	NA
7	125	105	NA	NA
8	125	115	105	70
10	NA	NA	NA	70

Sample test schedules and test blueprints are available at http://dpi.wi.gov/assessment/forward/resources

Test Administration Manual Make sure to have a copy of your Test Administration Manual (hard copy

Make sure to have a copy of your lest Administration Manual (hard copy or electronic). This manual is a critical tool for successful administration of the Forward Exam. As well as detailed information on much of the content in this presentation it includes:

- Basic test functionality you will use in your classroom during testing (e.g., log in, end vs. submit test, adjusting volume or screen color)
- Test Administration Script
- Troubleshooting
- · Test Administrator Checklist
- Common Error Messages
- Decision Trees

15

- Accessibility Abbreviation Codes
- Glossary of Forward Exam Terms

13 14

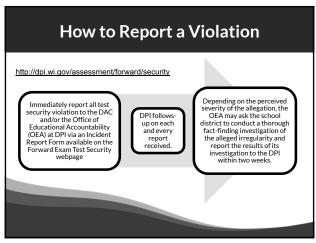

Test Security What is a test security incident How to ensure test security How to report a violation Consequences of a violation

16

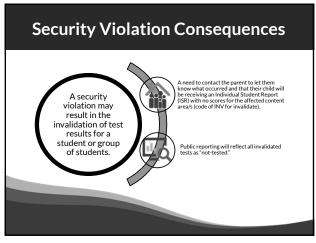

What is a Test Security Incident? Test security incidents are behaviors prohibited before, during, and after test administration because they give a student an unfair advantage or because they compromise the secure administration of the assessment and items.

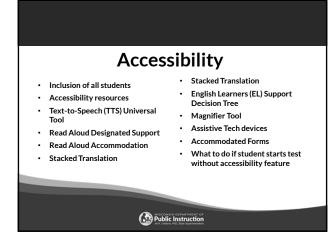

Whether intentional or by accident, failure to comply with security rules, either by staff or students, constitutes a test security incident.

How to Ensure Test Security No one may review, discuss, or Monitor students during testing analyze test items to ensure they are on task and prohibited materials and devices Ensure unauthorized staff or are not in use adults are not present in the Ensure use of designated testing environment supports and accommodations is Keep test materials in a secure appropriate area when not in use Be aware of test administration, Securely destroy test materials accessibility, and security policies and procedures Ensure no photos/copies of items are taken (by staff or Report all test security incidents students) at any time for any reason

Forward Exam Accommodations and Supports webpage: http://dpl.wi.gov/assessment/forward/accommodations

21 22

23 24

Text-to-Speech (TTS) Continued

- TTS will not read the passages in the ELA Reading Session.
- TTS will not automatically play, which allows a student to decide if they want to use the feature. TTS must be enabled by clicking the play button for each item.
- All students will now need headphones during testing unless tested individually in a separate setting.

25

Read Aloud Designated Support

- · Available for all content areas
- Read by a human reader
- As reading ability is being tested in the ELA reading session, a human reader cannot be used for the reading passages in the ELA Reading Session, but may be used for all directions, questions, and answer options.
- Should only be used by students with a documented need (including those with IEP or 504 plans) who have difficulties with the computer voice such as students with autism, hearing difficulties, etc.

Page 14, Accessibility Guide

26

Read Aloud Accommodation

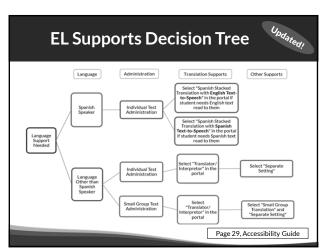

· Only available for ELA

29

- Read by a human reader
- In addition to reading all directions, questions and answer options, it will allow the reading of the passages in the ELA reading session.
- May only be provided to a student with visual impairments who is learning braille but not yet proficient and whose need is documented in an IEP or 504 plan, with prior approval from DPI via request form.

Pages 23 and 30, Accessibility Guide

27

Stacked Translation TTS

Stacked translation (Spanish) presents students with a complete Spanish translation of all test content together with the original English text.

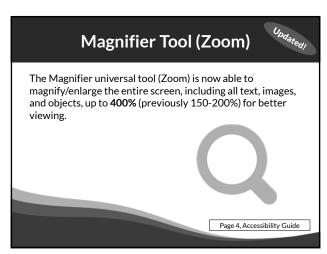

Stacked translation (Spanish) now has two options available to students:

• English Text-to-Speech (TTS) - The computer (TTS) will ONLY read the English content on the exam to the student.

• Spanish Text-to-Speech (TTS) - The computer (TTS) will ONLY read the Spanish content on the exam to the student.

• Spanish Text-to-Speech (TTS) - The computer (TTS) will ONLY read the Spanish content on the exam to the student.

28

Assistive Technology Devices

Any assistive technology device that is allowable on the Forward Exam and is part of student's IEP or 504 plan for the Forward Exam, should be checked for compatibility with the online testing system prior to the day of testing.

If assistance is needed, please contact the DRC Help Desk

31 32

33

Student Preparation Students may perform better and with less anxiety if they are familiar with the format of the test. Test preparation is only useful to the extent that it is also teaching content area knowledge and skills. It is very important to ensure that teachers are teaching to the standards and not to the test, as teaching to the test narrows the focus of instruction to only that content covered by the test.

A very small number of students will be working from these accommodated test forms (braille or print-on-demand)

There are administration instructions in the Test Administration Manual (TAM) for these forms.

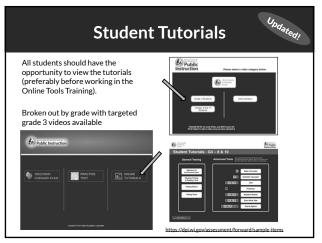

You must ensure that the test ticket has the accommodation before testing. If the code is not on the test ticket the accommodated form and the online form will not sync-up. This could lead to a test irregularity and misadministration.

Test Design Updates

Graphic overview of exam and sessions
Alignment to new Academic Standards
New English Language Arts (ELA) Test Design

37 38

39

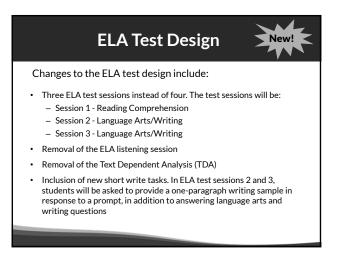

The spring 2024 Forward Exam for ELA and Mathematics at grades 3-8 will be aligned to the new Wisconsin Standards for ELA (adopted in 2020) and Mathematics (adopted in 2021).

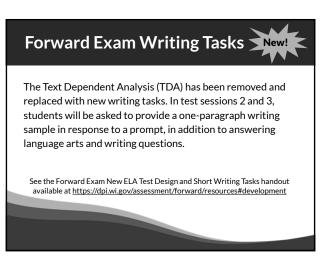

WISCONSIN STANDARDS FOR MATHEMATICS

WISCONSIN STANDARDS FOR English Language Arts

The Wisconsin Academic Standards are available at https://dpi.wi.gov/standards.

40

41 42

Example of New Short Write with Passage Students will be asked to read a short passage and write a one-paragraph response to a related writing prompt in a specific mode (e.g., narrative, opinion, argumentative, informative) based on grade-level standards. The associated passage should be used by the student to support their writing or as mentor text depending on the prompt. The polar Bear The polar bear makes its hone in the Ardic. In the writer, temperatures can drop 50 degrees above so. Chroy whick which is now across the fracer seas. The sun disappears for models. 500, just bear after. They have everything they need to survive in the Ardic. Saxying Wirm Pular bears are built for cold weather. For example, they have back sith. The dark color of their skin absorbs averight. Fular

Example of New Stand-Alone Short Write

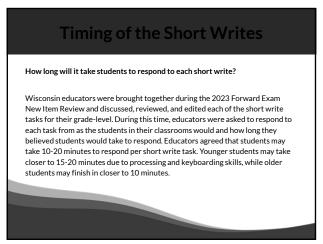

Students will be asked to write a one-paragraph response to a writing prompt in a specific mode (e.g., narrative, opinion, argumentative, informative) based on grade-level standards.

Outstoor:

Some people enjoy winter and all the fun activities they can do in the snow. Other people like summer, when it's warm enough to go swimming of to the park.

Write one paragraph explaining which season (spring, summer, fall, or winter) is your favoritie and why. In your paragraph, be sure to state your opinion, include detailed reasons for your opinion, and include a summary sentence.

43 44

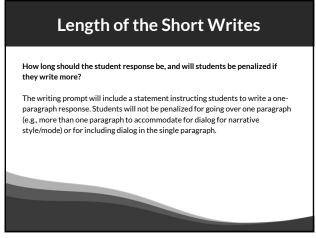

One Sitting

Does the short write need to be completed in one sitting?

Yes, unless there are extenuating circumstances (e.g., fire drill, illness, need for extra time due to differing abilities). At the end of any test sitting (the time allotted by the school for students to test), students who have not completed and submitted their test session are instructed (via the test administration script) to go back and make any changes or complete flagged questions at that time as they will not be permitted to do so when they log back in to complete the test session. While the test functionally will let students go back to test questions, it will open to the last unfinished question when the student logs in. The Test Administrator is to monitor students to ensure they only work forward from the last question completed during their previous sitting.

45 46

Do students need to provide supporting evidence from the passage in their response?

No, students do not need to provide evidence from the passage. The passage should be used by the student to support their writing or as mentor text, depending on the prompt.

Even though students are not required to provide evidence during the short write task with the passage, can they do so if the writing mode (e.g., informational/explanatory) allows for it?

Providing evidence from the passage is not required but students will not be penalized for doing so.

47 48

Writer's Checklist Will students be provided with a Writer's Checklist? No. Students will not be provided with a Writer's Checklist. Expectations are clearly defined in the writing prompt (e.g., introduce your topic, use descriptive words and details, state your opinion/claim, write a one-paragraph story, explain your reasoning, include a summary/concluding statement).

Does spelling count towards the student's score?

The writing samples should be clear and organized, however spelling errors will not affect the score as long as it is decipherable by the scorers.

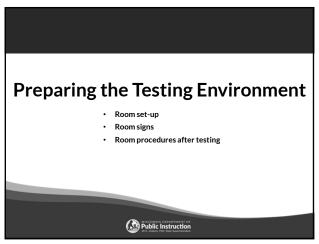

49 50

Will Text-to-Speech (TTS) read the passage associated with the short write task with passage? Yes. The passage associated with the short write task with passage, will be read by TTS if the student chooses to make use of the TTS. Are the 10-12 questions in Session 2 and 3 related to the short write tasks and or passage? No. The 10-12 questions in Session 2 and 3 are in no way related to the short write tasks in those sessions. These questions are stand-alone multiple choice and technology enhanced questions that measure the other ELA writing and language arts standards.

Will DPI share which mode of writing students will be expected to write to each year?

No. Each short write task will instruct the student to write a response in a specific mode (e.g., narrative, opinion/argumentative, informative). There will be different short write tasks/prompts within each grade-level. The prompt in Session 2 may ask for a different mode than the prompt in Session 3. Students are expected to be able to write to the grade-level expectations of ELA writing standards W3.2 and W3.3 in the Wisconsin Academic Standards.

51 52

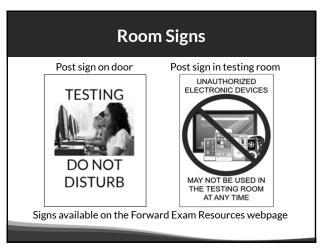

Distraction Free Zone

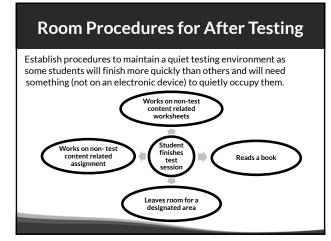

No noise from outsides sources
No noise from accommodations or supports from other students
Free from interruptions

Seating Arrangements
Students should be seated so that they cannot view the answers of others.
Consider appropriate spacing, using partitions, privacy screens, and/or placing monitors at angles

Cover Displayed Information
Remove or cover displayed information (on desks, walls, bulletin boards, chalkboards, dry-erase boards, etc.) that might be used by students to help answer questions.
Examples: rubrics, vocabulary charts, word walls, number lines, student work, posters, graphs, maps, charts, etc.

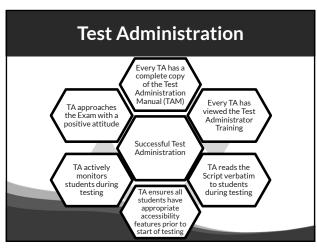

53 54

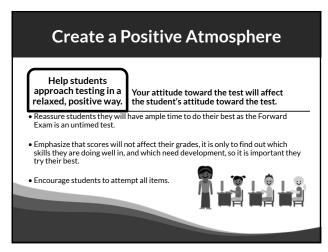

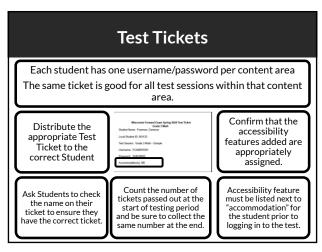

55 56

57 58

59 60

Test Administration Script TAs must the read directly from the script when administering the test. Script #2 Script #1 Must be used for at least the first test session given. Provides a detailed run through of all directions for students as they begin the May be used if you are resuming the test and students have already heard the detailed instructions from Script #1 at least once. Must be read verbatim. Forward Exam Must be read verbatim. **IMPORTANT - Check Accessibility Features** While students are reading the directions to themselves you need to check with each student to confirm that they have the accessibility features needed. Students using TTS should be able to hear the computer voice and may need the speed and volume adjusted. Students who need VSL or Spanish Stacked Translation should see those features in the directions. Students who need color or contrast adjusted may need you to help them. Students should only click the "begin test" button after you have confirmed they have the necessary accessibility features.

61 62

TAs must monitor student testing. Circulate around the room Ensure students are progressing through the test Redirect students who have lost focus Ensure no unauthorized electronics are being used TAs must report test security violations immediately.

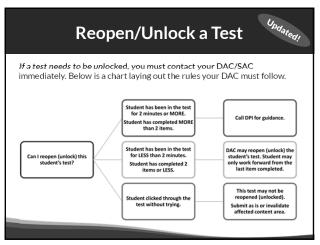

What type of Assistance is Permitted?
Be sure students understand the test directions prior to testing and how to work in the online system.
Assist them with the test taking mechanics but be careful not to inadvertently give hints or clues that indicate an answer or eliminate answer choices.
You may read an occasional word for a student, if asked, as long as it is not part of ELA reading passages.
Remind students to check their test for any items marked for review or not attempted prior to taking a long break or logging out for the day. (Proctors must not check student answers. This would be considered a security violation.)

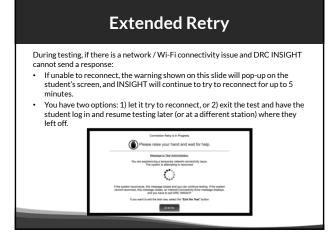

63 64

Administering Make-ups • Every attempt should be made to administer make-up tests to students who miss one or more of the scheduled test sessions. - Scheduling of make-up sessions must be coordinated with the School Assessment Coordinator (SAC) to eliminate conflicts and ensure that the students will be taking the make-up tests under the same conditions as the other students. • Students who are absent for one or more sessions should take the remaining session(s) with the rest of the class. • Make-ups for missed sessions (or for students who need extra time to complete a session) should be scheduled for a later time. • You may administer more than one grade level and content area in a single make-up session. Ensure each student in the make-up session is read the appropriate test directions for their grade level and content area.

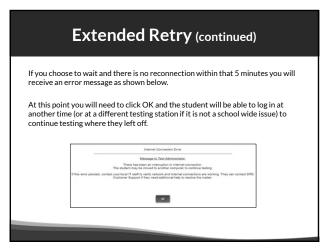

Staff availability
School closures
Student and staff illness during testing
Technical Issues - Removing students from a testing situation that is not functioning and returning them to their regular schedule until the situation is resolved is recommended to keep everyone's frustration levels low.

65 66

67 68

After Testing
But...
before the end of the testing window

• Ensure testing is complete
• Destroy secure testing materials
• End of test survey
• Forward Reports
• Connection to the Standards

69 70

Your DAC/SAC will have a record of any students who still need to test or take make-ups.
Work with your DAC/SAC to be sure those students are tested prior to the end of the testing window.

Destroy/Return Test Materials

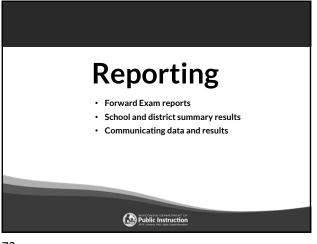

The Test Administration Manual provides information on returning or destroying secure test materials.

Braille - return to DAC/SAC to return to DRC

Print-On-Demand - return to DAC/SAC immediately for secure destruction and the DAC/SAC will complete a confirmation of destruction to send to OSA.

Test Tickets and scratch paper - securely destroy

71 72

Reporting for 2023-24

- Due to the need to hold a Standard Setting to set new cut scores for ELA and Mathematics, the Individual Student Reports and District/School Summary Data will be provided a bit later in the Summer of 2024.
- The goal for 2025 is to have reports to districts before the end of the school year.

73 74

New ISR Format Continued

 ELA score with additional Reading and Writing/Language Arts Subcategory Scores.

 Bulleted items explaining what a student can do at that performance level by content area.

76

Distribution of ISRs to Families

75

- ISRs should be sent to families immediately upon receipt in district.
- ISRs must be provided in a language the parent/guardian can understand and in a format that is accessible to them.
- Reporting resources for parents/guardians are available including translations on the Forward Exam Data and Results webpage https://dpi.wi.gov/assessment/forward/data.

Communicating Data and Results

Make sure you know:

- About the User's Guide to Interpreting Reports and where to access it. This resources will provide information to help you read and understand ISRs.
- The information on the ISR ties directly back to the Wisconsin Academic Standards documents. This is helpful when speaking to parents/Guardians to help them understand what their student knows or may need help with.

77 78

Connection to Standards

- The Forward Exam is aligned directly to the Wisconsin Academic Standards
- When talking to parents, you can refer to the grade level standards and show them what a student should be able to do in a particular category of a content area.
- If you have a whole grade level that seems to be struggling with a concept, you can go to that standard and check it against your curriculum to see if you may have gaps that need addressing.
- The Forward Exam Practice Test has information for educators about Forward item alignment to standards

Educator Involvement Opportunities · Rangefinding Meeting · Standard Setting Meeting · New Item Review Meeting Public Instruction

79 80

Upcoming Educator Involvement Opportunities Standard Setting In June of 2024, Wisconsin educators will recommend cut scores for the Forward Exam in English Language Arts (ELA) and Mathematics. The cut scores separate students into one of the four achievement levels, which provide clear indicators of a student's level in relation to the Wisconsin Academic Standards and indicate if they are on track

for future learning.

81 82

Upcoming Educator Involvement Opportunities Item Review In the Summer 2024, Wisconsin educators review all new test questions created for the exam for content, grade level appropriateness, alignment to correct standard, cultural inclusivity, and bias/sensitivity issues prior to placement on the exam.
