

Child and Adult Care Food Program OVERVIEW

What is the CACFP?

Why participate?

The CACFP plays a vital role in improving the quality of care for participants by providing access to nutritious foods. CACFP participation:

- Offers guidance in menu planning and recipe ideas.
- Provides resources and training to help programs serve healthy meals and snacks.

What types of meals are served?

Participating facilities may serve breakfast, lunch, supper and/or snacks. All meals and snacks must meet CACFP meal pattern requirements.
