

Questions & Answers
WISEdata: Best Practices
Britt Mueller & Garrison Gondek
March 10, 2022, 11:00 a.m. - 12:00 p.m.

Q: Julie Leung - Seton Catholic Schools: Is this being recorded? It doesn't look like it. Thanks!

A: This is a pre-recorded session. All pre-recordings are available on our [WISEdata Conference webpage](#).

Julie: Thanks!

Q: Kim Jedlicka - Delavan-Darien School District: Step 2: Wisedata Portal- If there is a red x and a validation was run, what are the steps that need to be taken to ensure data is flowing correctly?

A: There can be a number of reasons why the validation is showing a red x. I would encourage re-reviewing the data in your SIS vs what is showing in the student detail screen for the value you are trying to fix. If you still can't find the issue, submit a help ticket to your SIS or DPI depending on where you think the issue may be coming from. We can then take a closer look and let you know if we have additional information to help you fix the issue.

Q: Lorien Thomas - Kenosha Unified School District: How do we get the Snapshot Prep Role to show up in our list in Manage Security?

A: It should be an option when requesting/assigning user roles for WISEdash for Districts. If you are not seeing it in WISEsecure, please submit a [help desk ticket](#) so we can investigate.

Q: Jennifer: Is WISEdash just for public schools?

A: Yes, at this time WISEdash for Districts is only available for Public Districts and Independent Charter Schools.

Jennifer: Thank you.

Q: Janet Schneider - Chilton Community School District: What exports in WISEdata would you suggest as best for Snapshot Prep?

A: All of them, but it depends on what data you are reviewing. TFS and Oct 1 Count Inclusion exports are important to make sure your students are being counted correctly. CTE exports are important if you are a Perkins district. SPED exports to ensure your special education services are being reported. Demographics to ensure your Economic Status and ELL services are reporting accurately. They all have value.

Q: Kaitlyn Menden - Atlas Preparatory Academy: Is the WISEadmin portal available for choice schools?

A: The [WISEadmin Portal](#) is available to Choice schools.
