

Journey to 3! A Transition Roadmap For Families

Transition Planning Conference

Share information about your child. Ask questions about next steps and educational program options. Staff from perspective educational programs may attend.

Review Information

Birth to 3 Program records are shared, if parents/guardians consented. The evaluation team asks parents/guardians for additional input. Appropriate assessment measures are determined.

Evaluation Meeting

This meeting is to determine your child's eligibility for special education and related services AND the educational needs of your child. You are an important part of the evaluation/IEP team!

Notice of Placement

Parents/guardians will receive an offer of placement from the school district. Special education services may begin after a parent/guardian provides written consent.

IEP Review

A meeting must be held annually, or when requested by a team member (including parents/guardians), to review/revise the IEPs as necessary.

Referral

When the school district receives a written referral for your child, you will be notified in writing.

Additional Assessment

If additional assessment is needed, parents/guardians will be notified in writing. Assessments require written consent from a parent/guardian before they are administered.

IEP Meeting

The meeting occurs at a mutually agreeable time and date. The team will work together to design an Individualized Education Program (IEP) when a child is found eligible. Birth to 3 Program staff may attend with parent/guardian consent.

Services Begin

The services provided by the Birth to 3 Program conclude prior to your child receiving services from the school district.

Re-Evaluation

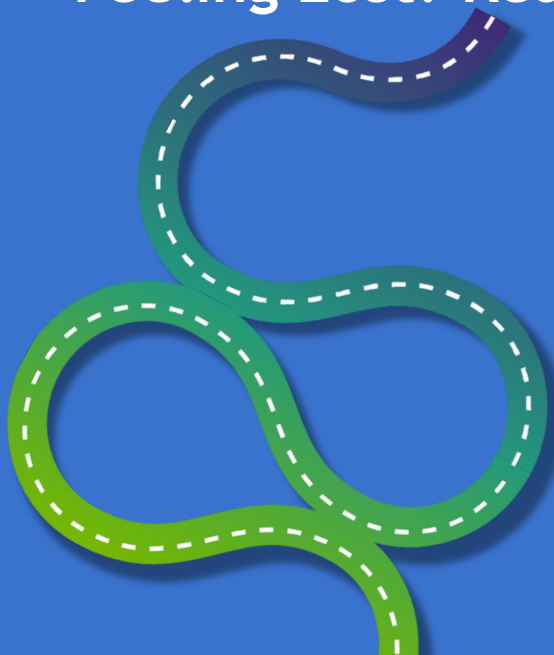

Your child's eligibility for special education services will be re-evaluated every three years, unless otherwise determined by the IEP team.
